### Testimonial >>>

"Carla's process allows you to move past situations, both conscious and sub-conscious, that you have difficulty in accepting and that are standing in your way of living a clear and functional life. It is a very real and palpable process which leaves you feeling balanced, objective and calm and functioning on a much clearer level. The complete process offered by Carla clears deep seated issues permanently and I have been able to change the way I approach both work and my personal life. I thoroughly recommend theta healing and Carla to anyone."

## Your Sexual Wellbeing – IS IT

- The one thing in your life that is totally healthy?
- The one thing in your life you have perhaps not given enough attention to?
- The one thing in your life that you haven't known how to handle?

*Talk it over with Carla!*

## Testimonial >>>

*As an engineer I must admit that I was sceptical at first with regard to theta healing. I still find it difficult to comprehend but I immediately felt a warm glow emanating from my body. This was accompanied by a sense of calm and happiness. With the help of theta healing I have learnt to feel and understand my feelings which in turn releases their power over me. I now feel more in control of my life than at any time in the past. I strongly recommend her to anyone, sceptic or believer!*

# Heal your relationships – heal yourself first.

## Introduction >>>

Very few of us have survived childhood, adolescence, and the entertainment world without being negatively conditioned about sex. From birth, most of us have been conditioned with ideas about sexuality that are not healthy, life-fulfilling, realistic or heart-centred.

- Do you have problems with relationships?
- Or within your relationship?
- Are you confused about a sexual issue?
- Do you want to feel more sexual passion?
- Do you want to deal with a sexual addiction?

Discuss it with Carla. Carla helps you deal with the emotional issues which often lie at the bottom of relationship problems and physical conditions. Do something now! Secrecy and procrastination are two ways of going backwards. Decide to go forwards today and make a start to achieve the changes you long for.

## Session Benefits>>>

Through Theta Healing (and the use of other modalities) you will:

1. Release sexual un-ease,
2. Clear up your past to go forward with confidence in your future,
3. Clear up relationship problems,
4. Feel empowered as a sexual being, male or female, and
5. Be done with fear.

## What is Theta Healing >>>

Theta Healing is healing performed in a relaxed state of mind. Muscle testing is used to determine a client's current beliefs and/or those of the client at a younger age, and used again to verify changes that have been effected. Theta Healing is safe, produces increased self esteem and increased ability to enjoy life in all its aspects.
